

## Project Design Phase-II

### Data Flow Diagram & User Stories

#### Data Flow Diagrams:

The classic visual representation of how information moves through a system is a data flow diagram (DFD). A tidy and understandable DFD can graphically represent the appropriate quantity of the system demand. It demonstrates how information enters and exits the system, what modifies the data, and where information is kept.

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user & web user )	Registration	USN-1	By providing my email address, a password, and a password confirmation, I can register for the application as a user.	I can access my account / dashboard	High	
		USN-2	When I register for the application as a user, I will get a confirmation email.	I can receive confirmation email & click confirm	High	
		USN- 3	I can sign up for the application as a user through Facebook.	I can log in to Facebook to register and access the dashboard.	Low	
	Login	USN - 4	By providing my email address and password, I can access the application as a user.	I can access the application	High	
	Dashboard	USN - 5	I can enter my income and expense information as a user.	I can view my daily expenses	High
